Request for Application (RFA): Research Grant Program

The Dent Disease Foundation seeks to support research that will ultimately lead to new diagnostics, treatments, and ultimately a cure for Dent Disease types 1 and 2.

Support

- Applications for up to one to two years of support will be considered. These funds may be used in the following categories: Personnel, Supplies, other costs, and Equipment. Indirect costs of up to 10% of the direct costs (excluding equipment) may be requested.

Maximum Funding

- \$50,000 total, including Indirect costs.

Deadline Date

- May 15, 2023

Notification of Award

- July 1, 2023

Applicant Qualifications

- Applicants must hold an MD, PhD. or equivalent and have an appointment at an academic institution.
- Compliance with all local and federal statutes and regulations of the country of origin must be met.
- Revised grant applications submitted require a 2---page introduction addressing the Reviewers' comments from the prior review of the grant application.

Final and Financial Reports

- Award funds are paid to the recipient's institution in quarterly payments by mail.
- A final report must be filed with the Dent Disease Foundation no later than 30 days after the end of the entire funded period and must include a non-technical lay description of the work. This report may be published in the Dent Disease Foundation public materials.
- A report from the investigator's fiscal office showing the final disposition of funds must be submitted at the same time. The investigator and the institution devise the format for these reports.
- All unexpended funds must be returned to the Dent Disease Foundation.

Funding From Other Sources

- If support for the proposed project is obtained from other sources, the recipient must notify the Dent Disease Foundation. Any funds awarded by the Dent Disease Foundation that remain unused will be withdrawn should funding be received for the same work from other sources.

Change of Institution/Transfers

- Written approval by the Dent Disease Foundation is required if a change of institution or transfer is necessary.

Extensions/Absences

- No-cost extensions must be requested in writing but are at the Dent Disease Foundation's discretion.
- Unexpended, first-year funds may be carried over to the final year of funding by written request.

Publications

- Acknowledgment of support from the Dent Disease Foundation must be made when findings are reported, published or publicity is given to the work. Acknowledgment such as "Supported by a grant from the Dent Disease Foundation" is suggested.
- It is the responsibility of the investigator to notify the Dent Disease Foundation of all publications.

Patents

- Awards are made with the understanding that the Dent Disease Foundation will receive written notification of the filing of any letters patent for any discovery made based on work funded by the Dent Disease Foundation.

Ownership of Equipment

- Equipment purchased under a Dent Disease Foundation award is for the use of the Principal Investigator and associates, and generally follows where the PI works during the course of the funded grant.
- Equipment requests must be justified in the application.

Biological Substances

- The Dent Disease Foundation expects the sharing of biological substances, reagents, or other materials resulting from Dent Disease Foundation-supported research. This will encourage optimal utilization of new technology by the research community.

Cancellation/Termination

- When a funding recipient has failed to comply with the terms and conditions of an award, the Dent Disease Foundation, at its sole discretion, may cancel/terminate the award.
- In the event that the Dent Disease Foundation determines that funds are not being used as approved, the Dent Disease Foundation may immediately terminate any further installments.

- In the event of cancellation/termination by the Dent Disease Foundation or the recipient, unexpended funds must be returned to the Dent Disease Foundation.

Application Form Instructions

- Applications must be typed, single-spaced, 11 pt Times New Roman with at least one-inch margins. Appendices must be in PDF.
- A short paragraph should be included in the General Objectives and Rational section describing the relevance of the proposed research to the goals of the Dent Disease Foundation.
- Pages 1 - 8 are to be completed by all applicants.
- The Principal Investigator must sign the Assurance statement at the bottom of page 6 for the application to be reviewed.

Award Notifications

- Applicants will be notified via email regarding the status of their applications.
