

# Poster Session Information

- ALL abstracts (even those selected for oral presentations) should be presented as posters during the poster session. **The poster session is Wednesday, December 4 from 5:00-7:30 PM. Make sure your poster fits on the poster board, dimensions of which are 4 feet tall and 6 feet wide.**
- The poster session will not feature oral presentations at a podium. During the poster session, you are expected to stand by your poster and be ready to discuss it with meeting attendees.
- A few “best posters” will be identified at the meeting on Thursday and will be determined by a committee of CAIRIBU investigators. Committee members will be asked to consider your poster based on how it looks (e.g., how it is laid out, clarity of results, etc.), how you present it, and how you field questions about it.
