

UCF Mission - We support, through philanthropic efforts, the improvement of urological care globally by funding research, clinical education, patient education, and humanitarian programs.

My Role – Oversees day-to-day operations of the UCF and its three main pillars in research, education and humanitarianism.

Research - In terms of research support, we have a team of three people fully dedicated to supporting our grant programs.

Our awards cycle supports the research career continuum, from medical students to experienced investigators.

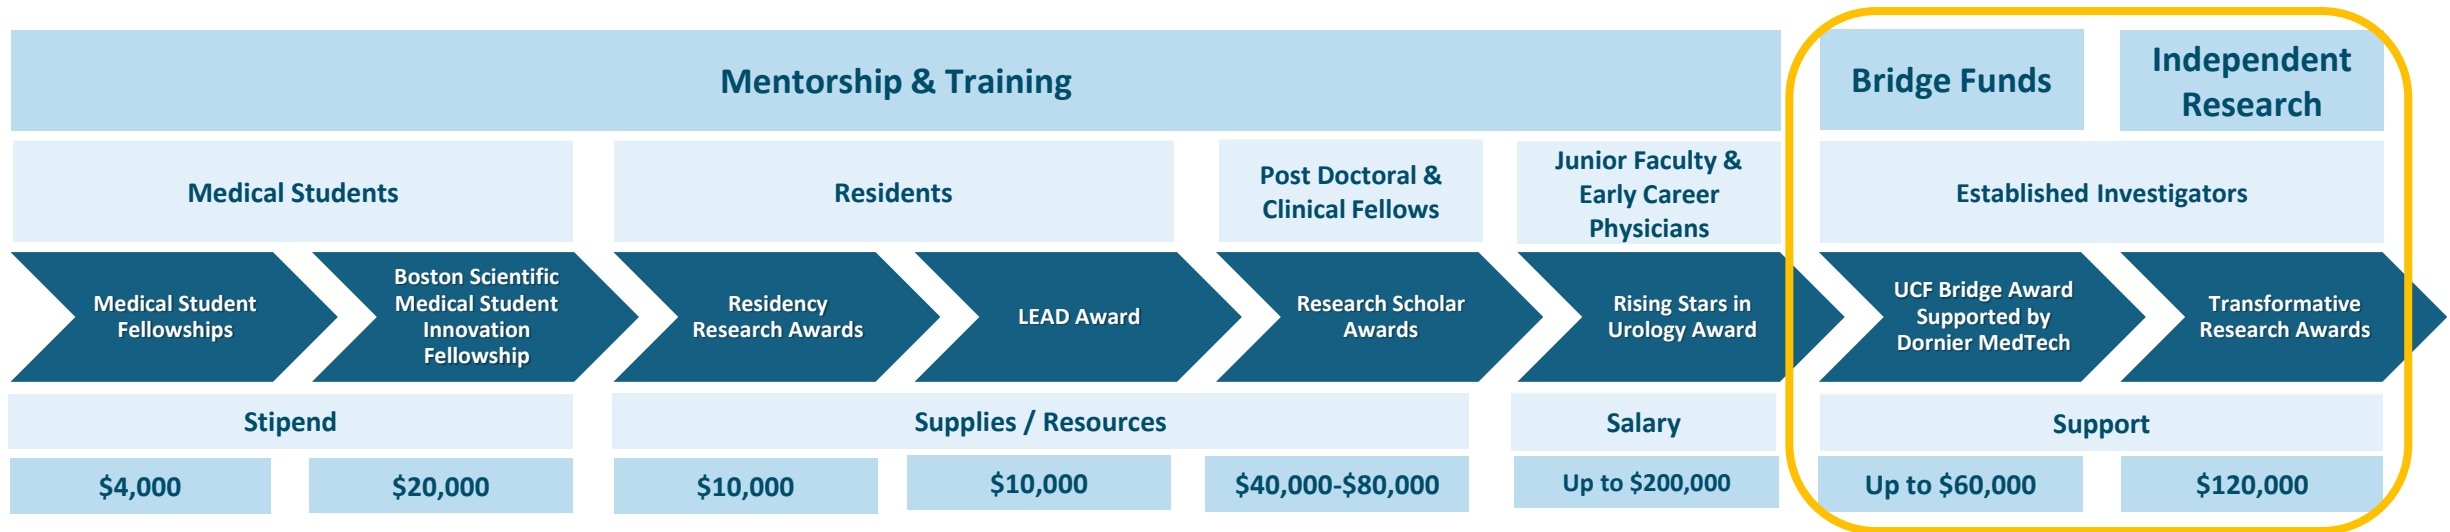

Ray Wezik, Esq.

Vice President & Deputy Executive
Director

Urology Care Foundation

rwezik@auanet.org

The Transformative Research Award and the Dornier MedTech Bridge Awards are critical additions to the AUA/UCF's research pipeline & portfolio, intending to support independent researchers in the urology space.
