Lou's on the move!

Hello! Ahead of the 2026 CAIRIBU Annual Meeting, the CAIRIBU Interactions Core would like to invite investigators in the CAIRIBU Community to participate in the “Lou on the Move” campaign. The “Lou on the Move” campaign aims to highlight the breadth of the CAIRIBU Community by showcasing the variety of institutions where investigators conduct their research.

Along his journey to the Annual Meeting in Madison, Lou will “travel” to labs across the country. Please see the instructions below for how to participate.

Instructions

- Unfold the stand on the Lou cutout.
- Record a short video or take a few photos of your team posed around Lou. See below for more detailed instructions for video recording and photos!
- Upload the video or photos to the **CAIRIBU Box folder** ⟶

Upload videos/ photos here!

Recording Instructions

- Vertical video is preferred. But horizontal video is acceptable for larger groups where vertical framing would be difficult.
- Record somewhere relatively quiet so everyone can be heard.
- Keep the video short, ideally 10–15 seconds.

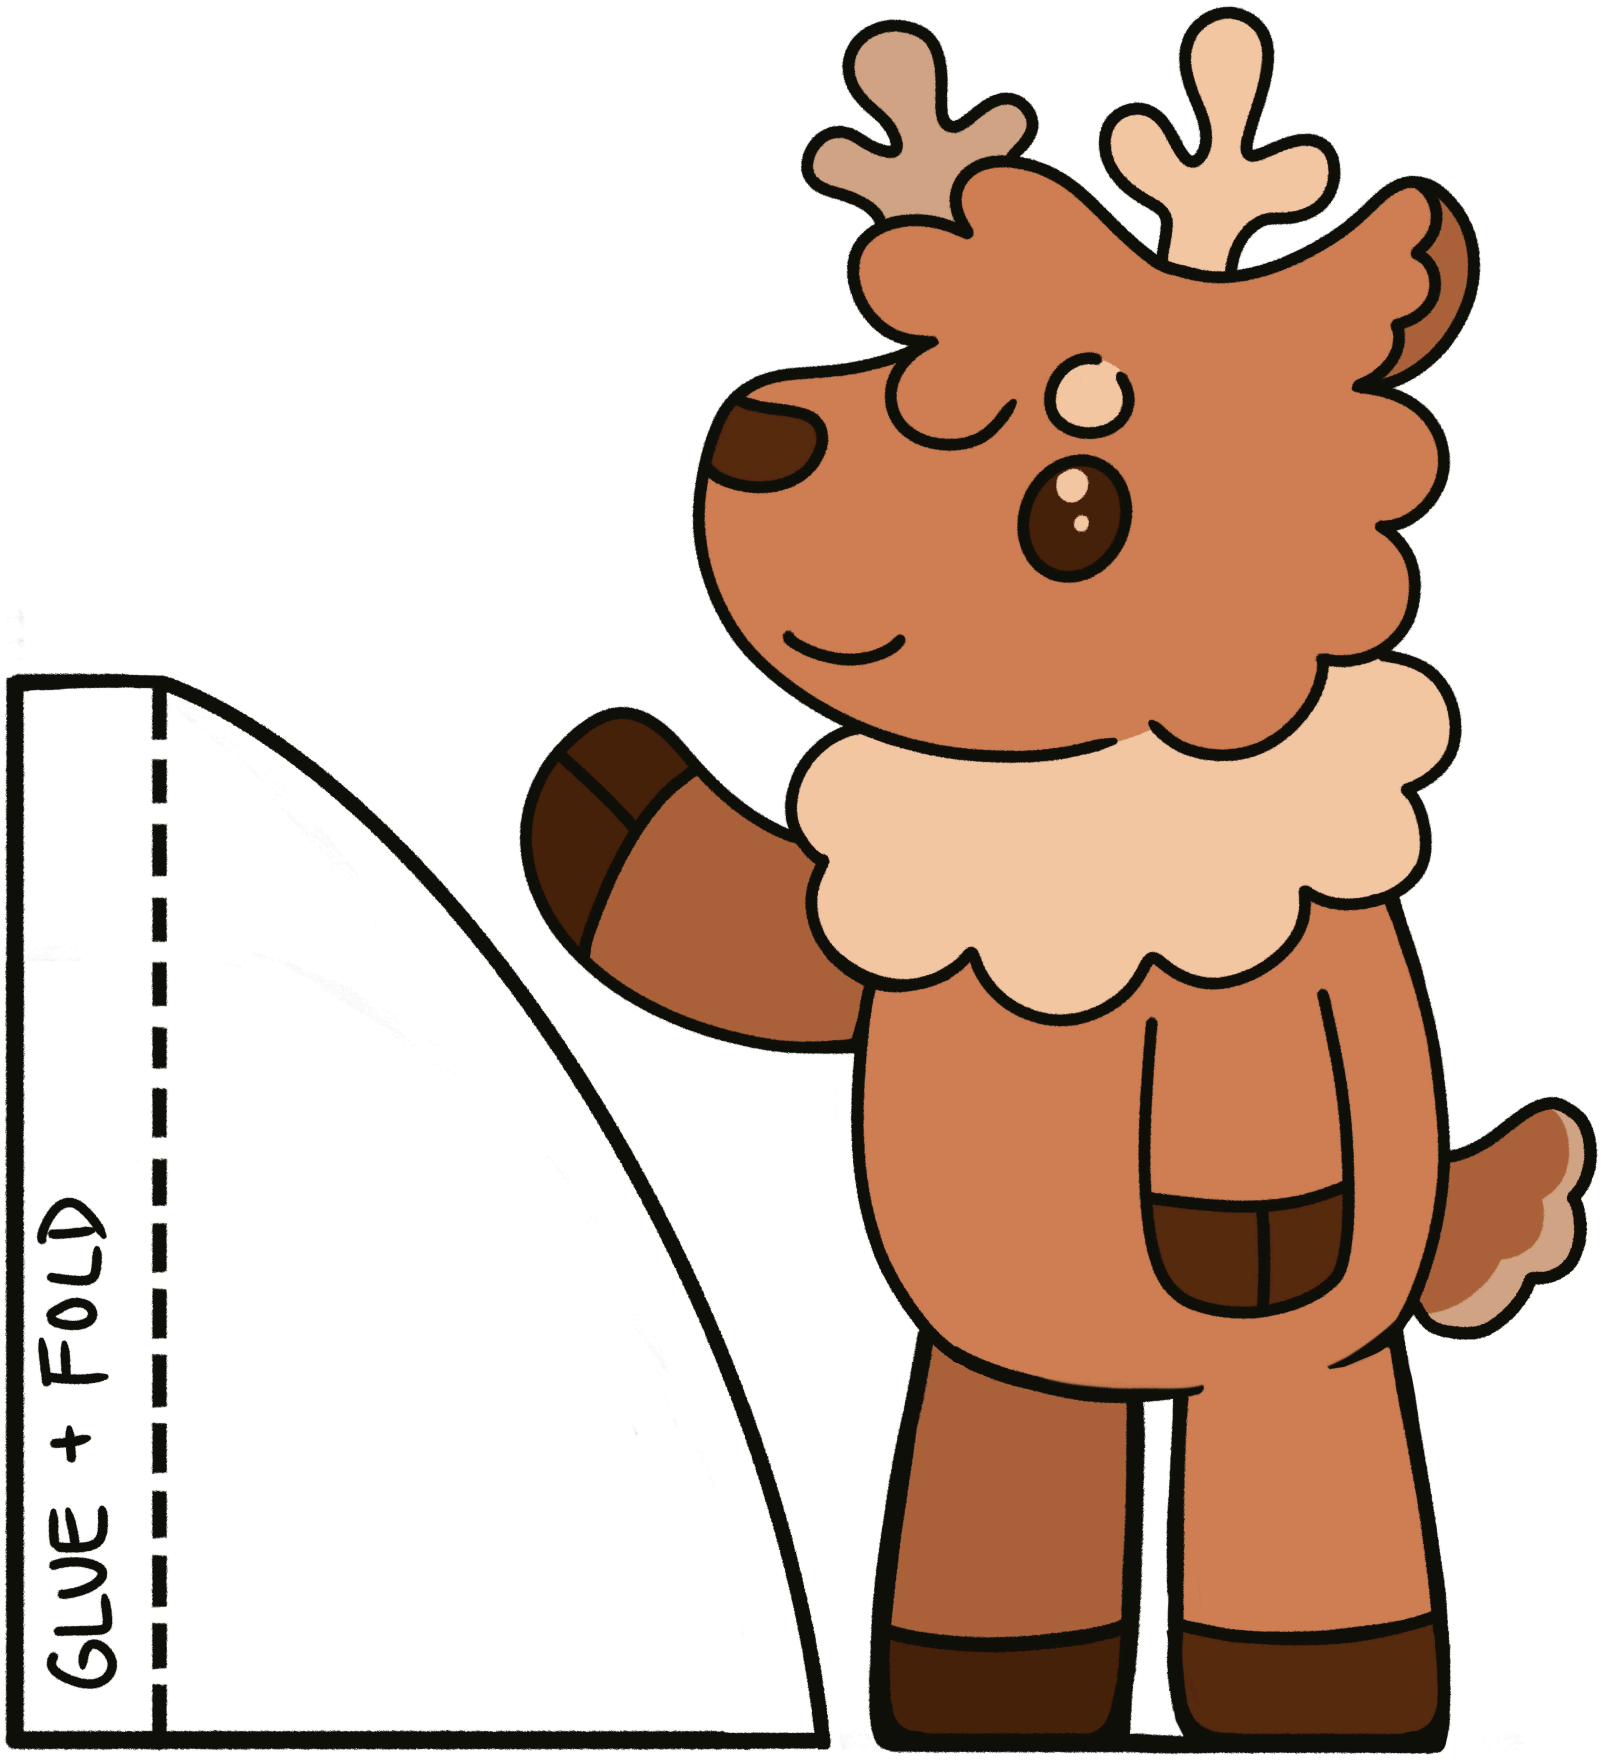

Suggested script: “Hi! We’re [Lab/Research Group] from [Institution], and we’ll be attending the 2026 CAIRIBU Annual Meeting! We’re excited to see everyone there!”

The script is only a suggestion! Groups can make it more personal or fun, such as mentioning what they're looking forward to at the meeting.

Photo Instructions

- Vertical photos are preferred.
- Upload as many photos as you’d like (2-3 minimum please)!
- Different poses are encouraged! Feel free to get creative!
